About the canyon

Ballinger Canyon is primarily used for off highway vehicles (OHV). With an abundance of trail systems designed for 4WD, ATV, and motorcycles, this is a great place to explore the Cuyama Valley landscape on wheels. Trail access can be found at Ballinger Campground in the midst of a juniper grove. Although the primary purpose of this area is OHV, the trail systems are well maintained and make for a great day hiking and trail running.

This is one of the best places to view the sunset in Cuyama with the ability to quickly get up on the ridge and see a vast majority of the Valley as the sun slips away.

Warnings

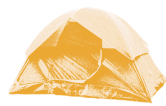

- No provisions
- Cell service is spotty
- Trails are not well marked
- Motor vehicles present

Distance

24-minute drive
17.5 miles

Activities

CAMPING

HUNTING
