**Welcome to this year's Small Farmers and Ranchers Gathering. We've made this year's theme "The Cuyama Valley Value Chain" in our efforts to continue exploring how we may work together in building a resilient and prosperous community. We are hoping to develop collaborative, creative solutions catered to producer and buyer needs in the Valley by providing an opportunity to interact with resource providers from the surrounding areas, as well as a time for all of you to network and speak about your own operations.**

**Thank you for taking part in this gathering and please feel free to provide feedback on what you enjoyed and wish to see in the future.**

**Thank you to all who contributed to the farm-to-table dinner. We hope that this continuous to demonstrate one of the many ways our community gathers and proves its rural resiliency.**
